Title 1 PreK Program

Ensuring that all students have equal opportunities to quality instruction and curriculum.

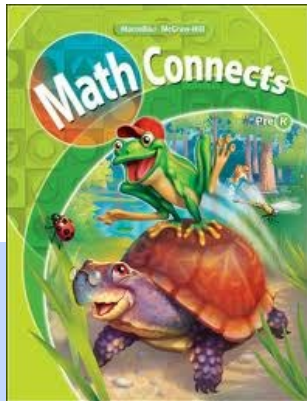

Curriculum

A comprehensive preschool curriculum.

Language Arts, Math, Science, Social Studies, Music, Social Development.

<http://reading.macmillanmh.com/ltreasures/index.html>

A specialized preschool math curriculum, that prepares students for Kindergarten.

<http://www.mhschool.com/math/mathconnects/preK/family.html>

About Our Program

Our goal is to provide a high quality and developmentally appropriate preschool experience for children in our community.

Our program emphasizes the whole development of children. We promote the physical development of children by encouraging healthy play, the cognitive development that prepares the preschooler for Kindergarten, and the social-emotional development that focuses on self regulation, social skills, problem solving, and age appropriate behavior.

Our classroom environments are rich in:

- Literature and literacy opportunities
- Hands on math manipulatives
- Child-centered choices
- Science exploration
- Social studies lessons
- Art activities
- Music, movement and finger plays
- Caring teachers with early childhood expertise and training
